Concentration of Control of Standing Timber in Few Hands Threatened.

REPORT MADE TO PRESIDENT

Findings of Herbert Knox Smith Regarding Lumber Industry of Country.

Washington, D. C., February 11.-Concentration of the control of the standing timber in a very few hands, vast speculative holdings "far in advance of any use thereof," an enormous increase in the value of "this diminishing natural resource, with great profit to its owners," and, incidentally an equally sinister land monopoly "closely connected railroad dom Ination"-these are the findings report Richmond, Va., Feb. 7, 1911.

ANNUAL MEETING OF STOCKHOLDERS.—The regular annual meeting of Stockholders will be held at the company's office, No. 1015 East Main Street, Ri'nmond, Va., on TUESDAY, 21st Instant, at 12 M. Transfer books will be closed from February 14 to February 22, 4911.

WILIJAM H. McCARTHY, Secretary.

Bed to President Taft by Herbert Knox Smith, Commissioner of Corporations in the first instalment of his long awaited report on the lumber industry of the country. The report was made public to-day, when submitted to Congress by the President, It constitutes the "first comprehensive and method-leal investigation of the amount and ownership of our standing timber."

The report itself comprises thirtyed to President Taft by Herbert Knox ownership of our standing timber." The report itself comprises thirtyprinted pages, but a summary of its contents is contained in a letter submitted by Mr. Smith.

"There are many great combinations in other industries," says the commis-sioner, "whose formation is complete. In the lumber industry, on the other band, the bureau now finds in the making a combination caused, fundamen tally, by a long standing public policy. the last forty years concentration has so proceeded that 195 holders, many interrelated, now have practically one half of the privately owned tim-ber in the investigation area (which contains 80 per cent, of the whole) This formidable process of concentration in timber and in land certainly

Always ready. Always bury. 1

Good Fairmount is in the 'investigation area,' covered in great detail by the bureau. This manager is provided the great detail by the bureau. This manager is provided to privately owned to great detail by the bureau. This manager is provided to privately owned to great detail by the bureau. This manager is provided to privately owned t Southern pine region and the Lake and about 90,000,000,000 feet on other non-private lands. Thus the total amount of standing timber in continental United States is about 2,500,000,000,000 board feet. The present annual drain upon the supply of saw timber is

about 50,000,000,000 feet. At this rate, the timber now standing, without allowance for growth or deeny, would last about fifty-five years. "The present commercial value of the privately owned standing timber in the ountry, not including the value of the land, is estimated as at least \$6,000, 000,060. Ultimately, the consuming public will have to pay such prices for

OF
VACANT LOT ON BEVERLY
STREET, BETWEEN BEECH AND holdings alone, the greatest in the country—those of the Southern Pacific Country—those of the Weyerhaeuser Timber lumber as will give this timber a far

concentration. First, a further inter-weaving of interests, corporate and personal connects a great many holdings which the bureau has treated as separate; second, there are very large totracts through larger holdings that they are substantially 'blocked in' or 'con-trolled' by the large holders; third, the concentration is much higher in the more valuable species.

"The targest holders are cutting little of their timber. They thus reserve to themselves incalculable profits which are still to accrue with the growth of the country, the diminishing

THE Laundry Bag says:

"A collar with a big crack in it certainly is not a thing of

"The Rag Bag gets it every time. "Know why collars crack? Because ravelings from the raw edges of the interlinings get under the irons.

"But Corliss-Coon Collars are different. Cracks don't run in their family. Their interlinings have no raw edges, being bound with an 'overcast stitch.

No ravelings, no cracking. "That's one reason why these collars hold the record for trips to the laundry."

Corliss-Coon Hand Collars

from use is clear evidence that great additional profits are expected to accrue through further increase in value Standing timber is not the only question. When the timber has been cut the land remains. There has been ere ated, therefore, not only the framework of an enormous timber monopoly, but also an equally sinister land concentration in extensive sections, involving also a great wealth in minerals.

CREATES SENSATION.

AGED WOMAN FALLS DEAD.

that policy are still largely operative. The past history and present status of our standing timber drive home upon us the imperative necessity of revising our public policy for the future management of all our remaining resources."

The commissioner then traces the interval during which timber land passed from government to private ownership.

Present Conditions.

"There is now left." he continues. "in continental United States, about 2,200,000,000 board feet of privately owned.
